

Sportsband

Bluetooth Headphones

Experience your music wirelessly in CD quality
& stunning colors

Charging Sportsband

For first use

Charging the battery before use is recommended but not required. The headphones ship pre-charged however initial charge will vary. Low battery is indicated by the status indicator blinking red with an audible tone every 20 seconds.

Charging with USB cable

Connect charging cable with the charging port of headphones below the control panel of the right earpiece. Connect cable to the USB slot of any PC or Mac. The status indicator will be red while charging and will turn off when fully charged. JayBird also offers an AC power adapter which your USB cable can plug into. AC power adapter sold separately.

Pairing & Power on/off

Pair mode

Begin with headphones powered off. Push and hold multi-function button for 6 seconds until status light alternates red and blue. You are now in pair mode. See your phone/music device manual for pair instructions. Passcode is 0000.

Power on/off

Pairing in detail

Pair Mode (detailed step by step instructions)

1. Keep the headphones and mobile phone in the range of 1 meter when pairing.
2. Put the headphones into pairing mode by pushing the multi-function (center) button for 8 seconds (LED will flash red and blue).
3. Start the Bluetooth function on mobile phone and search for Bluetooth devices. After searched, select "SB2" in the Bluetooth device list.
4. Enter password or PIN No:"0000" on your mobile phone when prompted.
5. If required, after successful pairing, select "SB2" in the Bluetooth device list and press "connect".
6. After successful connecting, the blue light blinks twice every 4 seconds.

Note

- If the pairing is not successful, switch off headphones by pushing the multi-function (center) button for 3 seconds, and then re-pair according to the steps outlined above.
- After pairing is successful, paired devices will remember each other. Unless pairing information is deleted, so there is no need to pair again.
- The headphones will connect with the latest paired device. If you want to pair with other Bluetooth devices, switch off the Bluetooth function of the current Bluetooth device, and then pair and connect it with the new Bluetooth device according to steps outlined above.

Pairing with adapter

Pairing with a Bluetooth Adapter (iSport or uSport)

1. Keep the Bluetooth adapter and headphones within 1 meter of each other when pairing.
2. Put the headphones into pair mode as outlined above.
3. Plug the Bluetooth adapter into the iPhone or iPod and play a song.
4. The headphones and adapter will pair automatically (passcode of adapter must be 0000)
5. After successful pairing and connecting, the blue (or red) light of headphones blinks twice every 4 seconds.

Note

For iSport and uSport adapter LEDs, they will double blink when transmitting in apt-X, and single blink when transmitting in standard SBC Bluetooth. Sportsband double blinks in both apt-X and SBC modes so refer to the adapter for guidance.

Sportsband features apt-X, CD quality wireless audio. Your music device must also send in apt-X. If your device does not feature apt-X, use the JayBird iSport or uSport adapters.

Pairing several devices

Pairing with several Bluetooth devices

The headphones can connect with two devices at most. A mobile phone with HFP profile; and a device with A2DP profiles. If you want to pair two Bluetooth devices, please refer to the following steps.

1. Firstly, pair the headphones with the Bluetooth adapter
2. Disconnect the Bluetooth adapter from the iPhone or iPod
3. Pair and connect the headphones with the mobile phone
4. Reconnect the Bluetooth adapter, will connect with headphones automatically.

Note

Mobile phones that support HSP and A2DP profiles simultaneously may block the Bluetooth adapter from reconnecting to the headphones.
